**Subject Code: CSCI 3901**

**Date: Nov 30th, 2021**

**Project Milestone#: 3**

## **Progress Report**

This report compares the progress that has been done till now with the original plan of feature development. The expected deadline and the reason for the change of schedule for each plan are mentioned below:

**1. External Documentation:**

Progress to Date: 100%

**2. Setting up the database and basic project setup**

Progress to Date: 100%

**3. Class Family tree, its methods, and implementation**

Progress to Date: 30%

Current Status: The logic and algorithm for all the methods of this class are set up and they will be completed by 1st December. The schedule got extended because of the ongoing assignments and exams of other subjects.

**4. Class Biological relation, its methods, and implementation**

Progress to Date: 100%

**5. Class Media Archive and its methods**

Progress to Date: 0%

Current Status: The expected date of completion for this class is Dec 2. But, it might get extended to December 4, again because of the deadline of the assignment.

**6. Reporting methods**

Progress to Date: 0%

Current Status: The expected date of completion for this class is Dec 6. But, it might get extended to December 9, again because of the deadline of the assignment and exams.

**7. Testing and re-iterating through the development process to improve functionalities and eliminate bugs**

Progress to Date: 0%

Current Status: The expected date of completion for this class is Dec 10.

**8. The final draft of all the internal and external documentation**

Progress to Date: 0%

Current Status: The expected date of completion for this class is Dec 12.

**9. The final draft of the whole project**

Progress to Date: 0%

Current Status: The expected date of completion for this class is Dec 13.
